DevOps	AWS Cloud Infrastructure, CI/CD Pipelines, Docker, Kubernetes, Rancher, Grafana, Prometheus, Terraform, CloudFlare
AI	Langchain, CrewAI, Vector & RAG, AI Agents
Tools	Git, Postman, Lark

WORK EXPERIENCES

MEETEDGE TM   Feb 2024 - Jul 2025

Full-stack Developer

Project: MeedEdge AI Lead Generation & Sales Platform
Technical Stack: Next.js, Zustand, NestJS, Flask, Supabase, Langchain, OpenAI, AWS
- Participated in R&D process to identify SME business insights, pain points, and platform differentiation strategies.
- Conducted technical assessments and architecture planning for platform development.
- Designed and implemented database schema for user, organization, company, staff management, etc.
- Built AI-powered recommendation system for company and personnel matching using Flask and Langchain.
- Established CI/CD pipeline for rapid deployment to production and staging environments.
- Monitored system performance and debugged server-side issues across multiple environments.

BLACKWIND SOFTWARE

Aug 2023 - Jan 2024

Full-stack Developer (React Native, ExpressJS)

Project: ZoBook App

Technical Stack: React Native, Redux, ExpressJS, SQL Server

- Built mobile applications using React Native, ExpressJS, and MSSQL.
- Implemented user authentication, account management, and payment flows.
- Designed APIs connecting mobile applications with MSSQL database for business operations.
- Optimized application performance through error handling and continuous monitoring.

KYANON DIGITAL

Sep 2022 - Aug 2023

Software Engineer

Project: Aura Beauty Clinic ERP System

Technical Stack: Next.js, Redux, Supabase, ExpressJS, AWS

- Developed web-based ERP system UI from existing Figma designs using Next.js, TailwindCSS and Ant Design.
- Built APIs for data extraction including customer management, inventory, scheduling, and task allocation.
- Deployed system with CI/CD pipeline on AWS infrastructure.

Project: NOM App

Technical Stack: React Native, Redux, Firebase, WebSocket

- Developed React Native mobile application from Figma designs and integrated with Drupal CMS APIs.
- Fixed critical bugs affecting user experience in shopping and livestreaming features.
- Implemented real-time user interfaces and enhanced user interaction elements.

CERTIFICATES

IELTS 6.5 Overall (CEFR Level B2 equivalent)

Aug 2022
